MISSION MANAGER™
PREPARATION. READINESS. EXECUTION.

THE ULTIMATE IN EMERGENCY MANAGEMENT SOFTWARE

SAVING LIVES. PROTECTING PROPERTY.

When a disaster occurs, you need the right people and equipment in place to effectively execute your mission. Mission Manager ensures first responders remain crisis-ready with current data so they can make the right decisions, quickly and efficiently, when faced with an emergency. Cloud-based, user-friendly and affordable, Mission Manager is built on three core principles: **PREPARATION. READINESS. EXECUTION.**

Mission Manager allows emergency managers to effectively manage their daily team operations as well as their missions. It reduces unnecessary paperwork, streamlines emergency response efforts and enhances situational awareness with a click of a button. Arm your team with this leading emergency management software solution to help save lives and protect property — whenever, wherever a disaster strikes.

TEAM AND EQUIPMENT MANAGEMENT
- Track all your personnel contact information, including training, certifications and expirations, and medical information
- Organize events, request RSVPs and sign up for events with your team calendar
- Print standard ICS forms, such as team assignments, mission status, logs and more.
- Maintain records for your gear, equipment and vehicles
- Upload your team's documents; control who can see and edit them
- Generate personnel timekeeping and detailed mission time reports

REAL-TIME MISSION MANAGEMENT
- Track your deployed personnel in real time on maps
- Create, assign and track team member tasks
- Collect personnel responding status for missions
- Track field info or "clues" and locate them on your mission maps automatically
- Drag-and-drop your personnel in standard ICS positions or on team assignments
- Send real-time messages via emails, SMS text and voice calls – or all three simultaneously

MAJOR FEATURES

- No dedicated hardware: Nothing to install because Mission Manager runs in the cloud

- Runs on all major web browsers

- Operates on laptops, desktop PCs, smartphones or tablets

- Continuous database backups with uptime guarantee of 99.9%

- Highly secure database ensures your data is safe and confidential

- Full-service product support

- Comprehensive training: Video tutorials, phone, emails & onsite

MISSION TYPES

Developed by a first responder with field-proven insights, Mission Manager has supported approximately 7,000 missions over the past three years, including:

- Searches / Rescues / Recoveries
- Natural Diasters
- Campus Security
- Aircraft Accidents
- Investigations
- Parades / Marathons
- Training Events
