

THE ULTIMATE INCIDENT MANAGEMENT TOOL

SAVING LIVES. PROTECTING PROPERTY.

When an incident occurs, you need the right people and equipment in place to effectively execute your mission. Mission Manager ensures first responders remain crisis-ready with current data so they can make the right decisions, quickly and efficiently, when faced with an incident. Cloud-based, user-friendly and affordable, Mission Manager is built on three core principles: **PREPARATION. READINESS. EXECUTION.**

Mission Manager allows incident commanders to effectively manage their daily team operations as well as their missions. It reduces unnecessary paperwork, expedites response efforts and enhances situational awareness with a click of a button. Above all, this turnkey incident management tool lays the foundation for a well-coordinated response effort needed to help save lives.

TEAM AND EQUIPMENT MANAGEMENT

- Track all your personnel contact information, including training, certifications and expirations, and medical information
- Organize events, request RSVPs and sign up for events with your team calendar
- Print standard ICS forms, such as team assignments, mission status, logs and more.
- Maintain records for your gear, equipment and vehicles
- Upload your team's documents; control who can see and edit them
- Generate personnel timekeeping and detailed mission time reports

REAL-TIME MISSION MANAGEMENT

- Track your deployed personnel in real time on maps
- Create, assign and track team member tasks
- Collect personnel responding status for missions
- Track field info or "clues" and locate them on your mission maps automatically
- Drag-and-drop your personnel in standard ICS positions or on team assignments
- Send real-time messages via emails, SMS text and voice calls – or all three simultaneously

MAJOR FEATURES

- No dedicated hardware: Nothing to install because Mission Manager runs in the cloud
- Runs on all major web browsers
- Operates on laptops, desktop PCs, smartphones or tablets
- Continuous database backups with uptime guarantee of 99.9%
- Highly secure database ensures your data is safe and confidential
- Full-service product support
- Comprehensive training: Video tutorials, phone, emails & onsite

MISSION TYPES

Developed by a first responder with field-proven insights, Mission Manager has supported approximately 7,000 missions over the past three years, including:

- Special Enforcement Detail
- Tactical SWAT Operations
- Campus Security
- Aircraft Accidents
- Parades / Marathons
- Training Events
- Searches / Rescues / Recoveries
